CHANGES IN THE BOSTON DIRECTORY.

*Number of Names in Directory of 1887	184,517
Number of Names in Directory of 1886	177,665
Increase	6,852
Names added	42,444
Names erased	35,592
Changes in location, etc	59,524
Number of changes made in preparing General Directory	137,560

*This number includes the names of 1,833 individuals who have died during the year, with date of death, or have removed from the city, with locality to which they have gone.

By comparing these figures, it is seen that there are 137,560 alterations in a total of 177,665 names that composed the Directory of 1886, or about 77½ per cent.

The percentage of changes is gradually increasing from year to year, showing that our population is not located so permanently, as a rule, as in former years. It also emphasizes the fact that a new Directory is absolutely needed *every year*, and the practice of using one for two years, as was formerly done to some extent, is necessarily being discontinued by all enterprising firms and others who desire the full benefits to be derived from the latest and best information.

Attention is called to the fact that canvassers claiming to represent the BOSTON DIRECTORY are taking orders for inferior books, often collecting payment in advance, and we renew our CAUTION to all advertising patrons to closely scrutinize orders before signing, and ensure safety by refusing *payment in advance* of publication.

Complaints occasionally reach the publishers that Directories have been stolen by borrowers, peddlers, and others. To guard against such loss, patrons are advised to mark their Directories conspicuously, and all are cautioned that any BOSTON DIRECTORY offered for sale at *less than five dollars* has probably been stolen.
